ORIGIN & HISTORY

The Birth of an Aquatic Giant

GOOGLE **4.6** ★★★★★ 39 480 reviews

TIQETS **4.4** ★★★★★ 644 reviews

Built at the heart of the Atlantis The Palm hotel complex, Aquaventure World was born from Dubai's bold vision to create an unparalleled leisure destination. Inaugurated in **2008**, this park quickly exceeded initial projections to become a pillar of Emirati tourism. Its construction on the artificial island of Palm Jumeirah represented a major engineering challenge, requiring special foundations to withstand maritime conditions and intense heat.

With its **105 attractions** spread over 22.5 hectares, the site has established itself as the world's largest water park according to TEA reports. The park's constant evolution has allowed for the integration of cutting-edge technologies in slide design, ensuring unique thrills while maintaining exemplary safety. This scale enables a diversification of experiences, ranging from calm areas for children to dizzying towers for speed enthusiasts.

Attendance has experienced spectacular growth, rising from 1.4 million visitors in 2015 to **2 million in 2024**. This momentum reflects the global appeal of this tourist gem, which attracts families from all corners of the globe. Commercial success has led to regular expansions, including new record-breaking structures and improved relaxation spaces to meet growing demand.

The strategic location on Palm Jumeirah offers not only a breathtaking view of the Persian Gulf but also perfect integration with the Atlantis hotel. This synergy between luxury accommodation and aquatic entertainment has defined a new standard for international resorts. Today, Aquaventure remains a global reference, combining technical innovation and warm hospitality.

THE EXPERIENCE

From the moment you enter, visitors are drawn into a lush tropical atmosphere that stands in vivid contrast to the surrounding desert. The abundant vegetation and natural pools create a cool, immersive sanctuary, turning every step into a sensory discovery. The air is filled with exotic scents, while the sound of water flowing through artificial rivers soothes the mind before the physical exertion begins.

The promise of the visit is clear: **thrilling sensations** and absolute relaxation coexist harmoniously. The bright colors of the slides wind their way between the palm trees, inviting you to defy gravity. It is a total experience where time seems to disappear, cradled by the Dubai sun and the coolness of the water, in a setting that appears to have been plucked from an island dream.

ORGANIZATION

Exploring the Park's Zones

Splashers Zone (Kids)

This area dedicated to the youngest guests features gentle slides, interactive fountains, and shallow pools. Parents can safely supervise their children as they play in a colorful and playful environment. It is the perfect place to start the day gently.

Thrill Seekers Zone (Adults)

The heart of the park, this section features the most intense attractions, such as dizzying drops and high-speed slides. The towering structures require good physical condition and offer unforgettable flying sensations. Wait times here are often the longest, especially during peak hours.

Lazy River & Beach

A slow-moving river winds through the park, allowing visitors to drift peacefully between attractions. It leads directly to the private beach bordering the Persian Gulf. This space is perfect for relaxing, sunbathing, and enjoying the panoramic sea view.

ACCESSIBILITY

Disabled Access

Accessible pathways and adapted attractions available upon prior request.

Must-sees

SELECTION

Must-See Attractions to Try

01

Thrill Seekers Zone

Aquaconda

Recognized as one of the longest water slides in the world with its **800 meters**, the Aquaconda is a dizzying experience. The course winds through transparent tubes offering spectacular views of the park and the sea. The final descent is particularly brutal, requiring you to keep your balance until the finish.

💡 Many visitors report having screamed with joy or fear during the first loop, as the transition from the opaque tube to the light and dark is sudden.

02

Zone Thrill Seekers

Leap of Faith

This unique attraction consists of a vertical free fall of **27 meters** from a tower. Participants descend through a narrow tube before plunging into a deep pool. It is one of the most popular attractions for those seeking pure adrenaline.

💡 The moment of suspension just before the drop creates palpable tension in the queue, visible even from afar.

03

Zone Thrill Seekers

The Storm

A combo of two opposing slides that culminate at **26 meters** high. Riders must navigate tight turns and rapid drops. The implicit competition between the two tracks adds a playful dimension to the experience.

💡 It is advised to check your exact height beforehand, as the required height is strict to avoid being turned away.

04

Family Zone

Jumbo Slide

Designed for groups of 4 to 6 people, this family slide allows you to share the excitement together. The wide channels enable fun maneuvers during the descent. It is an excellent option for mixed families looking for a shared activity.

💡 Children love choosing their position in the raft, which often leads to hilarious debates before departure.

05

Kids Zone

Splashers Kids Zones

A secure space featuring mini slides, water jets, and shallow pools. The facilities are designed for toddlers, with non-slip surfaces and bright colors. Parents can relax on nearby loungers while keeping an eye on their children.

💡 Daily animations in this area add a festive touch, with costumed characters interacting with the children.

06

Relaxation Zone

Lazy River

An artificial river that runs through the park, allowing you to drift leisurely on floaters. The current is slow, offering a refreshing break between intense rides. The lush vegetation along the banks creates an idyllic setting for relaxation.

💡 Many couples choose to spend most of their afternoon here to escape the crowds at the big water slides.

07

Seaside

Private Beach Access

The entry ticket provides direct access to the Atlantis private beach. The white sand and clear waters offer a magnificent contrast with the park's concrete. It is the perfect place to end the day with a swim in the sea or a sunbathing nap.

💡 The sunsets from this beach are considered among the most beautiful in Dubai, attracting amateur photographers.

08

Atlantis Complex

Lost World Aquarium (Optional)

Although separate from the park, this adjacent aquarium offers an exceptional marine immersion. Underwater tunnels allow you to observe thousands of species, including dolphins and sea lions. A perfect complement for marine life enthusiasts who have the right pass.

💡 The dolphin feeding sessions are a highlight, offering very close interaction with the animals.

TIPS

Optimizing Your Stay in the Sun

TIMING

Arrive at opening time (often 10 a.m.) to head straight for major attractions like Aquaconda before the lines get long. Check the exact hours on the official website, as they vary by season.

TICKET

Consider the 'AquaXpress' option to skip the lines on major attractions. Although more expensive, it can save precious hours, especially during peak season. Make sure to distinguish between the park-only ticket and the one that includes the aquarium.

TOUR

For families, strictly alternate between the Splashers zones for children and the large slides for parents. This prevents fatigue in the little ones and allows adults to experience the thrills without waiting.

PHOTO

Use the flash in the Lost World Aquarium to capture dark species. On the private beach, golden hours (early morning or late afternoon) offer the best light for family photos.

BREAK

Budget enough for the in-house restaurants, as outside food is not allowed. The private beach is a great spot for a quiet lunch break away from the park's hustle and bustle.

CHILDREN

Check the minimum height requirements (1.07 m and 1.20 m) before arriving to avoid disappointment. The dedicated children's areas are spacious and secure, ideal for young children accompanied by adults.

AUDIOGUIDE

The audioguide is not essential for the water park itself, but it is useful if you visit the Lost World Aquarium to learn about the species. Available in English and Arabic, it enhances the educational experience.

COMFORT

Be sure to bring a suitable swimsuit (no jeans or city clothes) and sunscreen. Also, plan to have water shoes for the beach and a waterproof bag for your personal items.
